ISSUED BY ST. ANDREW'S COLLEGE ASSOCIATION EXPRESSLY
FOR OLD BOYS, PARENTS AND OTHERS INTERESTED IN THE SCHOOL

AUTHORIZED AS THIRD CLASS MAIL, POST OFFICE DEPARTMENT, OTTAWA,
AND FOR PAYMENT OF POSTAGE IN CASH.

AURORA, ONTARIO CANADA

VOL. 20 No. 1

JUNE 1976

Bruce Wall '74 pipes in the Head Table led by Association President Bill Somers, followed by Chairman of the Board of Governors Gage Love, and (below) Dinner Committee Chairman Bryan Devereux and Headmaster Tom Hockin.

Headmaster Tom Hockin congratulates '75 graduates Dave Mitchell and Rick Mann on their awards of the "Athletic A" for athletic achievement. Interestingly both were Ontario Scholars as well, Mann standing first in Upper VI (Grade 13) with 93.2% and Mitchell third with 87.2%.

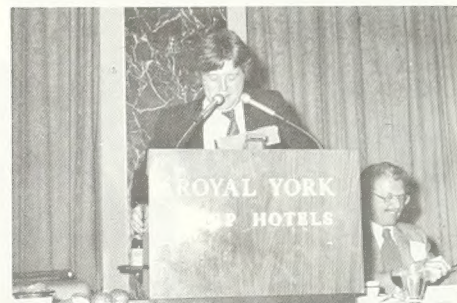

Association Dinner

The Committee arranging the Annual Dinner this year chose the Royal York Ballroom as the locale, and it seems to have been a popular choice, as was a Friday evening. Another excellent turn out was recorded, 301 Old Boys and fathers being on hand, only slightly less than last year's record attendance at Harbour Castle. Committee members included Bryan Devereux as Chairman, Cliff McCauley '46, Murray Shields '67, Tom Amell '72, and Association Secretary Jim Hamilton '33.

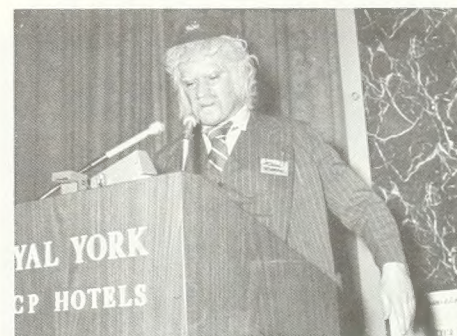

Murray Shields acted as master of ceremonies for the occasion. After a series of draws during dinner determined the winners of raffle prizes, he apologized for the empty place at the head table which regrettably was to have been occupied by the guest speaker. Murray admitted that he was at a loss to explain the speaker's failure to appear, when a raucous voice boomed out from a balcony overlooking the Ballroom, being none other than that of "Fred C. Dobbs", of CKEY radio and Channel 19 television fame. Fred, in real life Old Boy Michael Magee '48, proceeded to the head table lectern where he kept us all in stitches for the next forty minutes. The Committee made it known that there would be no other speeches since it was felt those present preferred to have the remainder of the evening to fraternize with their friends. It appeared to be a popular decision.

"Believe it or not, John was this tall when he was only 12", maybe father Lou Molner says to somewhat skeptical fellow parents Dusty Miklas and Ron Mitchell.

Murray Shields, as M.C. thoughtfully has a supply of buns at hand, "just in case", he says.

Fred Dobbs, complete with S.A.C. tie and cap, delivers another salvo.

Bill Gourlay '41, winner of the grand prize in the raffle of an eight day trip to Mexico, is congratulated by Association Secretary, Jim Hamilton.

Student Tutor Program

There are close to forty periods in every week where teaching and learning take place in the traditional way: small classes under the supervision of a master. On Friday afternoons after Christmas, however, for one brief period a whole new set of activities and relationships was instituted. This period, devoted during the fall to chapel singing and carol service rehearsals, was donated by the Headmaster to what became known as the Student Tutor Program. "Each one, teach one" was the motto, and this was an opportunity for willing students who were proficient in a certain subject or skill to tutor one of their fellow Andrians who felt in need of help. The skills being worked on were academic, physical and musical. Coordinating the logistics of this project I can best describe as being a happy headache! Attempting to find workable combinations and keeping up with the shifting needs of the pairs was certainly a headache. The happiness came with seeing the concern and industry being shown in virtually every department across the school. In the academic area every subject taught in the School had its share of tutors and tutees, with over one hundred and twenty offering to participate. On the physical side a dozen boys improved their basic swimming skills while another two dozen of the juniors were exposed to the basics of cricket at a time when the grass was still shrouded in snow. Two further groups of boys during that period loyally attended rehearsals either with the junior band or with the pipes and drums. The final alternative for those not involved in tutoring activities was to attend the film series "Civilization", a culturally enriching though not necessarily very popular option. This was a varied and innovative addition to the St. Andrew's program, one which I hope to see continued in future years.

Rupert Ray - Tutorial Coordinator

Drama

Director Craig Kamcke's St. Andrew's College Players again came up with an outstanding effort in presenting "Brigadoon" to full house audiences on February 27 and 28. This Loewe and Lerner musical was particularly fitting for St. Andrew's with its setting in the Scottish Highlands. A cast of 44 including the orchestra, with another 45 individuals involved behind the scenes means that about one quarter of the School participated. Female lead was taken by Cathy Baker-Pearce, ably assisted by Catherine Griffith, Kathie Lloyd and Gay Ackerman. Hugh Munro and Myles Pritchard had the principal male roles of Tommy Albright and Jeff Douglas.

During the Spring term the School hosted the Second Annual Independent Schools One-Act-Play Festival on May 8. Adjudicator was Tony Moffat-Lynch of Toronto. Six schools competed for the Donald Davis Award which went to Pickering College's production of "Escorial". David Fox received the Best Actor Award for his extraordinarily professional portrayal of the King in the Pickering entry. The Crescent School Award went to Simon Clements of that schools presentation of "Lord of the Flies".

Evidently enjoying themselves are fathers Phil Macfarlane, Myer Brody and Maurice Bygrave.

Jake Vanderploeg, S.A.C. Foundation Trustee entertains Fred Lyon '23 with one of his inexhaustible supply of anecdotes.

John Currie expresses a viewpoint for Tony Wong and Blair Christie, all of '70.

Tim Chisholm '28 and Waldo Holden '25 greet Gilbert Robinson '23.

"Enough of this levity, let's get down to some serious drinking", says Bob Eakins '33 to brother Warner Eakins '37 and Jack Chipman '42.

Jim Gear '69 learns what's new in Cobourg from Doug Gear '40 and Neil Kennedy '37.

Norm Stewart, Aurora Councillor and major domo of the Great Hall, beams for Charlie Edwards '70 and Col. John Eldon Dean '67.

Bob Sillcox, father of Scott in Lower VI, and John Copeland '56 discover they have some interests in common.

Expansion Week

In 1975 the School instigated an interesting and successful experiment called "Expansion Week". This year the experiment was continued and extended. In this week boys investigated a wide variety of projects and most groups prepared reports which were presented to the School on Saturday morning, March 6th. This year's projects included:

ASTRONOMY: This group moved to the North in the hope of securing better atmospheric conditions, which unfortunately did not materialize.

CABINET MAKING: Nine boys were taught some of the elements of cabinet making and are preparing nine new chairs to match those in the Library.

EXHIBITIONS: This group visited such places as the Science Centre, the Planetarium, the Royal Ontario Museum and Art Gallery of Ontario.

FINANCIAL INSTITUTIONS: This group examined banks, trust companies, brokerage houses from an investment point of view.

FORT STE. MARIE: A reliving of the experiences of the first missionaries and artisans in the regions of Huronia.

FRENCH TRIP: A group of 20 visited Trois Rivieres and were closely associated with the school there for the week. Most of them lived with local families and took part in family life.

GOVERNMENT: Two boys spent the week working in and observing the operation of the Attorney General's office.

OUTDOOR SURVIVAL: A group of hardy individuals spent the week in the Algonquin Park area. The exercise included outdoor survival under very adverse conditions. We are glad to report that all survived and returned safely!

HISTORICAL SITES OF KING: Preparation of a photographic album of buildings that may well disappear in the "march of progress".

LANDMARKS: Historic Toronto revisited, intended mainly for younger boys.

LAW ENFORCEMENT: Examination of police and other law enforcement agencies in the immediate area.

MATH CRAM: This represented an opportunity for a number of students who have been having difficulty with math to improve their skills in the subject.

MEDICINE: A small group of senior boys were closely associated with the working of York County Hospital and had an opportunity to see a great deal of the medical services available in the area.

MUSIC ENSEMBLE: A number of interested musicians had an opportunity to attend a rehearsal of the Toronto Symphony Orchestra and to visit other facilities concerned with music. They also practiced at the School for several hours each day and by the end had produced a very creditable ensemble.

NEWSPAPER: A study of all facets of the business.

OTTAWA: Members of the senior History class visited Ottawa and had an opportunity to see some phases of the Federal Government in operation. The visit included interviews with several personalities of our Canadian Parliament.

PHOTOGRAPHY: This group recorded this year's projects for posterity.

School Hosts Swedes

During the Spring break in 1975 the First Hockey team visited Sweden. They were so royally entertained that arrangements were concluded to have a group of Stockholm students visit Aurora. In the first week of March the Vastertorps Gymnasium hockey team, accompanied by some supporters including nine girls and two chaperones, arrived at St. Andrew's. All were billeted at the homes of local residents, mostly parents of day boys or staff members. During their busy eleven day sojourn they visited Toronto several times where they saw a hockey game at Maple Leaf Gardens, the Ontario Science Centre and a pop concert. The entire group travelled to St. Catharines, staying overnight at Ridley, then moving on to Niagara Falls. Mr. and Mrs. Lou Molner and son John hosted a tremendous party at their home in Erin, as did Mr. and Mrs. Don Andrew and son Ed.

The Vastertorps team played four games, defeating Upper Canada, tying Ridley and losing twice to St. Andrew's.

All in all it was a strenuous eleven days but obviously a hugely successful project. The Swedes were impressed and many friendships made. Full marks to Jamie Errington, day boy prefect, who did most of the organizing and very well. St. Andrew's is grateful to all those who participated in making the Swedish visitors welcome.

PHYSICAL EDUCATION: These boys visited McMaster University and saw the elaborate installation there for measuring physical prowess. They worked as individuals in various activities at the school.

PORTS OF ONTARIO: An extension of last year's research of Toronto as a port, they investigated some of the other important ports in this part of the Province.

POTTERY: A small group of boys concentrated on this activity and for their final demonstration produced a very creditable display.

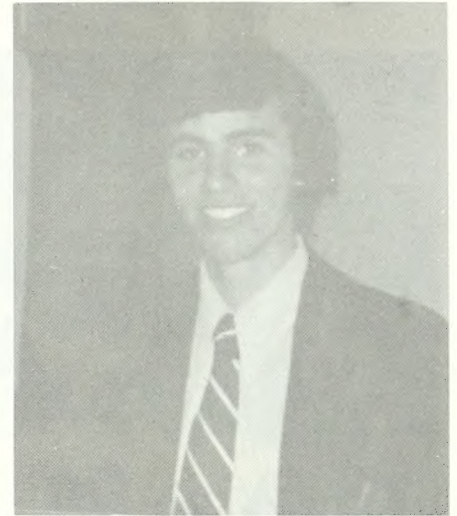

S.A.C. ON TAPE: A history of St. Andrew's as obtained by interviews with old boys and former masters.

UNDERSIDE OF TORONTO: An investigation of the slum and near slum areas of Toronto and also some of the persons who must live in this environment.

UNIVERSITIES: How do we prepare our students for university life? A study at source!

VETERINARY MEDICINE: A small group became actively involved in the operation of a veterinary clinic.

Debating

Brian Mitchell, Lower VI (Grade 12) student at St. Andrew's has brought distinction to the School as well as himself by being judged top debater out of seventy contestants in the province-wide finals of the Ontario Student Debating Association. The event took place at Laurentian University in Sudbury in early April. Mitchell was selected for the finals when a member of the three man team from St. Andrew's entered in the Metro Toronto Tournament. Being selected No. 1 in the province also makes him captain of the 6 member Ontario team which will compete in the National Student Debating Seminar held in Winnipeg, June 8-13. 66 high school finalists from eleven provinces and territories are expected to take part. Due to withdrawal of grants from various governments there was a probability that money to send the team might not be available. However St. Andrew's took the lead in finding the necessary funds and a contribution from the S.A.C. Association helped make it possible.

Topic for the week long seminar is Economic Disparity Among the Provinces.

Jake's Corner

- N-E-C-K: Something which, if you don't stick out, you won't get in trouble up to!
- Being told inflation is worse overseas is no consolation. Can't we be first in anything anymore?
- Don't lend money to friends or relatives; it gives them amnesia.
- The above courtesy of our official raconteur and Foundation trustee Jake Vanderploeg.

CHAMPIONS — AT LAST!

First Hockey Team 1976

Back Row: Bob Lassaline (stats), Brian Evers, Jeff Baun, Greg Baun, Ed Andrew, Cam Stevens, Jamie Errington, Howie Epworth, Bill Houston (Manager).

Middle Row: R. D. Kinney (Coach), Andrew Dalton, Cliff Sifton, Dave Calverley, Mark Bedard, Rob Dobson, Doug Richardson, Ian Howell (Coach).

First Row: Scott Sillcox, Lee Devereux, Gary Lawrence, Al McClelland, Bob Kirk.

THE JIM WRIGHT TROPHY

Four years of effort by the First Hockey team to win the ISAA championship finally paid off in the 1976 season. The team finished second in 1973, third in 1974, second again in 1975 by a single point and this year in first place in a tremendously exciting season.

With the addition of Lakefield and Appleby a few years ago the former Little Big Four became the Independent Schools

Athletic Association. This year Nichols School of Buffalo joined to make it a seven team league.

Actually the season started prior to Christmas when the team played a couple of exhibition games and then went on a five day tour to New England. At Dartmouth University's arena in Hanover, N.H. they lost to a very fast and aggressive team from Newhampton School. This team was

subsequently invited to Lakefield's Invitation Tournament which they won handily. Following the game at Hanover, S.A.C. participated as the only Canadian team in the Groton-Lawrence Invitation Tournament at Groton, Mass., where they lost in the semi finals by a close 2 - 1 score to the eventual winners.

(cont. next page)

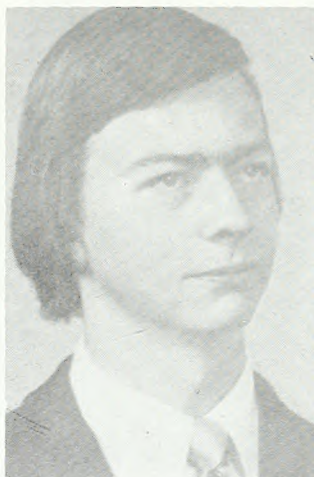

Three days after the winter term started the team met Nichols School on their ice in the league opener and managed a 4-2 win. Four days later they met Ridley in their dismal undersized arena and came out ahead in a 4-3 squeaker. When St. Andrew's, on home ice, defeated perennially powerful Upper Canada 5-3 it looked like a championship was within reach. But seven games remained to be played, which turned out to hold some surprises. While S.A.C. continued its winning ways against Appleby, Lakefield and T.C.S., Upper Canada was held to a tie by Ridley and Nichols, thus giving S.A.C. a two point advantage in the league standings. However, the situation tightened when Ridley came up with a great effort to beat our boys on our own ice, 3-2, in St. Andrew's only loss in league play.

First place wasn't decided until the final game of the season, played at Aurora between S.A.C. and U.C.C. A win for U.C.C. would give them a share of the championship. St. Andrew's needed only a tie. Little did anyone know how dramatic the game would be! When the S.A.C. team skated out for warm up three members of the starting lineup could not stay on their feet because their skates had been improperly sharpened. Assistant Coach Ian Bowell rushed the skates over to the nearest sharpening machine in Aurora, but the officials insisted quite properly that the game start on time. The result was that the three players did not get on the ice until three quarters of the first period had elapsed. In the meantime three defencemen and two forward lines held off the U.C.C. attack, and in fact gave St. Andrew's a 2-1 lead on two great goals by the so-called "third" line. The drama continued in the second and third periods when another S.A.C. goal was more than matched by two goals by Upper Canada, to leave the score tied 3-3 with five minutes to go in the final period. Upper Canada pulled their goalkeeper with a minute and a half remaining and launched a furious assault on the S.A.C. goal. Several scrambles at the goal mouth left the roaring S.A.C. supporters holding their breath, but somehow or other the puck stayed out and the game ended still deadlocked 3-3. St. Andrew's were champions!

The Firsts also played in the Georgian Bay Secondary School Association hockey group, winning that title too without losing a game. This qualified St. Andrew's to represent the region in the Ontario High School play offs. Journeying to Ottawa for the semi finals, the team had to play three games in less than twenty four hours and were eliminated in their last game.

Summing up the season - the best by a St. Andrew's team in the past thirty years - it shows a record of 23 wins, 6 losses and 1 tie. Top scorers were Mark Bedard with 46 goals and 41 assists for 87 points, Gary Lawrence with 67 and Brian Evers with 56. Goalie Bob Kirk played consistently well all through the season, ably assisted by the steady quartet of defencemen, Al McClelland, Jeff Baun, Howie Epworth and Ed Andrew.

Congratulations to coaches Ron Kinney and Ian Bowell, Captain Gary Lawrence, and to every member of this great team, for bringing honour to St. Andrew's. On behalf of all members of the Association, the Andean salutes you!

CHESLEY F. CROSBIE who graduated in 1972 has been awarded a 1976 Rhodes Scholarship. He graduated in May with an Honours B.A. in Political Science from Queen's, and hopes to be accepted by Balliol College at Oxford to pursue a Master's Degree in Philosophy. Ches is the son of Hon. John C. Crosbie of St. John's, Newfoundland, S.A.C. 1945-49.

The Senior Art Program

This year St. Andrew's College is offering for the first time Art as an option to its grade eleven students. Through further exploration of drawing, printmaking and sculpture, the course is designed to make use of the familiarity students gained with various media in grade ten. It also introduces them to realms of the study of art through graphics, stage design, painting and photography. Behind each unit of study elements of composition and design are emphasized.

Art history and appreciation are important parts of the course and are presented two ways: firstly as it relates to the student's studio work, secondly as an independent discipline. While students are working at drawing they examine the works of Durer, Picasso, Remington from a technical point of view; when painting, the work of Raphael, da Vinci, Cezanne. Throughout the year they also will study the history of art from the late Middle Ages to the beginning of the 19th century noting the changes in style and beauty. The course is designed to be intense and demanding; to make the student aware of his own abilities and of the abilities of others and, through the quality of work they produce, to contribute to the atmosphere of the school.

Donald Stuart,
Senior Art Master
& School Librarian

| 33 | 314 | Gordon E. Hunter, KLEINBURG, Ontario |
| 34 | 354 | Rita Byberg, GREENWOOD, Ontario |

Each of the above has won a \$1000 prize. As of press time there are 18 draws remaining.

Cadets

Some parents may have read or heard that Upper Canada College has decided to make their cadet program voluntary for the few boys who retain an interest in cadets. Although a number of independent school corps have gone this way in the last few years, it is not our intention to follow their example. It is strongly felt here that the modified and more meaningful program introduced about five years ago is still working well. Moreover, the tradition of mounting an annual ceremonial inspection and Church Parade, a tradition reaching back over seventy years at St. Andrew's, is in our estimation a meaningful exercise.

Cadets is an activity in which the complete upper school participates along with a Macdonald House platoon.

Over the past few years St. Andrew's has deliberately reduced the amount of time spent on cadets to accommodate a more diversified extra-curricular program. However, with careful management and the co-operation of the boys we have managed to maintain an estimable standard on parade and in other ways.

An unusual but interesting feature of this year's Cadet Corps Inspection was the father and son combination of Col. C. G. Kitchen, C.D. as Inspecting Officer and Cadet Lt. Col. R. G. Kitchen as Officer Commanding the Corps. They are seen accompanied by the Headmaster and Lt. Col. W. C. Stark, C.D., Commanding Officer of the 48th Highlanders.

The Colour Party during the General Salute. The flag was presented to the St. Andrew's College Cadet Corps in memory of the late Harry B. Housser, one of the original students when the School was founded in 1899, by his family.

Winner of the Ellsworth Trophy for the best platoon was No. 2 Platoon, commanded by Cdt. Lt. C. A. Yelovich. Capt. MacPherson's Prize to the Best Cadet went to David Kerr.

Generally speaking it can be said the boys accept the cadet program in good spirit. Naturally the compulsory and disciplined nature of it leads to occasional grumbling but this quickly disappears in the excitement of putting on a good parade. This year with fifty per cent more volunteers for the Officer/NCO training program, we look forward to producing a fine parade on Friday, April 30, when Col. C. G. Kitchen will be inspecting officer. His son is the Cadet C.O.

The optional subjects offered during the regular cadet periods are more varied than ever before, hence many boys are improving their skill in typing, first aid, auto-mechanics, scuba diving, cooking, military engineering etc. Moreover, the opportunity for young men to learn to deal with the problems of managing their peers sensitively yet with dispatch in a formal situation is one that is unique to cadets. Cadets have a long and generally happy history in our school and it is sincerely hoped that they will continue to flourish in the years ahead.

GUESTS WELCOME

Second Hockey

1976

While First Hockey was getting most of the limelight, Second Hockey was busy compiling a very impressive record. In fact, they were so strong that they played many of the First's GBSSA games and won in all of them. In building their 16 win, 3 loss record Paul Bedard and John Middup provided the main thrust for an attack that averaged better than five goals per game. There was no ISAA title as such this year, but if there had been this team would most certainly have been a contender for it.

Back Row: Peter Byberg, John Epworth, John Crandell, R. Bedard (Coach).

Middle Row: Bill Gray, Paul Bedard, Andrew Beckwith, Colin Earle, Tim Horton, John Gray.

Front Row: Scott Sillcox, Mike Earle, John Middup, Dave Johns, Jeff MacMillan, Dave Calverley (absent), Scott Willoughby.

WON 16 — LOST 3

I.S.A.A. Champions 1976

Under 15A Hockey was the class of the league this season as they devastated teams of their own age class and won against teams above them in category. John Sedgewick, Ivan Calverley and John Bassett were allowed to run amok around opposing teams' goals, five and six goal performances by one player were quite common. As with all good teams the backbone was good two way play, especially from Ed Parker and John Mortimer. The team's defence was not to be scoffed at either as it helped keep goalies Steve Young and Steve Moore's average down.

Truly hockey at St. Andrew's appears to have a bright future.

UNDER 15A HOCKEY

Back: Dan Peyer (Mgr.), Ivan Calverley, Mark Grossman, Ed Parker, Thane Russell, John Sedgewick, Rob Minialoff, Bill Kane, P. Stuart (Coach).

Front Row: Steve Young, John Bassett, Scott Mortimer, Colin Larsen, Ken Marshall, Steve Moore.

RUGGER TITLE TO ST. ANDREW'S

Senior Rugger

Independent Schools Champions

Capping what must be one of the greatest years in athletic accomplishment in the 77 year history of St. Andrew's, the Senior Rugger 15 man team captured the Independent Schools Championship during the spring term. Winning football in the fall, hockey in the winter and rugger means that the School took a major championship in each term. It is doubtful if this ever happened before at St. Andrew's.

Since the spring term is so short it allows only one game to be played with the other Independent Schools, being similar to football in that respect. S.A.C. ended the season winning four of its five league matches and three exhibition matches.

Coach Geoff Smith gives credit for the victory to the determined way that team members, led by Captain Ed Andrew and Rob Kitchen, went about their practices. In addition to the regular afternoon sessions the boys were often out on the backfields at 6:30 in the morning. This kind of dedication was bound to pay off. A feature of this year's team, too, was that it had depth. Injuries to key players did not seriously impair its effectiveness as good replacements were available and filled in capably.

It is interesting to see how rugger has progressed at St. Andrew's, starting from humble beginnings back in 1963. At that time the seven-a-side version was gaining some popularity in Ontario as an introduction to the game. Mr. Courtney Stoate of the French Dept. was an enthusiast for rugger, which is probably the understatement of the year, and he got a small group of boys interested. That year a senior and junior team were entered in the Ontario Seven-a-Side Tournament at Victoria Square. Both teams were soundly beaten but in the following year with added experience they did a little better. In 1965, after only three years, S.A.C. reached the finals and repeated in 1966. Courtney Stoate's determination and first class coaching could not be denied, and in 1967 the "Open" side swept all before it to win the championship of Ontario, which was held through the next two years with the loss of only one game each season.

St. Andrew's in 1963 was the first of the so-called Little Big Four schools to embrace rugger. By 1970 some of the others had taken it up, and enthusiasm amongst the boys had grown to the point that the fifteen man game could be played. In fact it had to because the number that wanted to play could not be accommodated in seven-a-side.

The Little Big Four, having become the Independent Schools league by the addition of Appleby and Lakefield, played both fifteen and seven-a-side as some of the schools could field only the smaller sized team. Mr. Geoff Smith assisted by Mr. Lewis Pitman took over the coaching in 1971, and St. Andrews won the I.S.L. sevens in 1972 and 1973. Appleby won the first full season of fifteens in 1974 and again in 1975. This year was St. Andrew's turn.

Important News Bulletin to Parents Old and New

Your Ladies' Guild at St. Andrew's has undertaken a new venture and will be adding it to their Fall Line-Up of activities.

WHAT IS IT????

A shop known as the "SAC RACK" which will sell boys "almost new" suits, coats, jackets, blazers, slacks, shirts, sweaters etc.

WHERE IS IT????

It will be located in the Ladies' Guild Lounge, right on the school grounds - just follow the signs.

WHY IS IT????

Since 50% of each sale will be put to good use for our boys (100% if articles are donated) it is a painless way to help your school and get a SUPER BARGAIN at the same time.

HOW IS IT????

Nothing could be easier - just bring your boy's out-grown clothes, clean and in good repair, with you whenever we're open and we will take it from there.

If you don't have anything to bring come anyway and buy - buy - buy.

A note sent with your boy authorizing him to charge will be acceptable and we will bill you if you can't come yourself.

WHEN IS IT????

For your convenience we will be open before school starts in the Fall:

Wednesday, August 25 from 1 to 4 p.m.
and

Wednesday, September 1 from 1 to 4 p.m.

During the school year our regular day will be the last Wednesday of each month from 2 to 4 p.m.

If you have any questions, please feel free to call 881-1688

Mrs. J. H. Dandele,
SAC RACK Chairman

Prize Day

Friday, June 4, was the last day of term for the current academic year. St. Andrew's seems to have received very sympathetic consideration from the weatherman lately, and he came up with another perfect day for this occasion. The largest Upper Sixth (Grade 13) class in the 77 year history of the School, sixty five in all, bade farewell to staff and fellow students and received Old Boys ties from Mr. J. K. Macdonald, Honorary Chairman of the Board of Governors. In addition to the usual achievement and special prizes, a new series of awards this year was made to the students in various forms making the greatest percentage improvement from the previous year. "Long Service Medals" were also presented to the students who have gone through all grades from Lower II (Gr. 7) to Upper VI (Gr. 13).

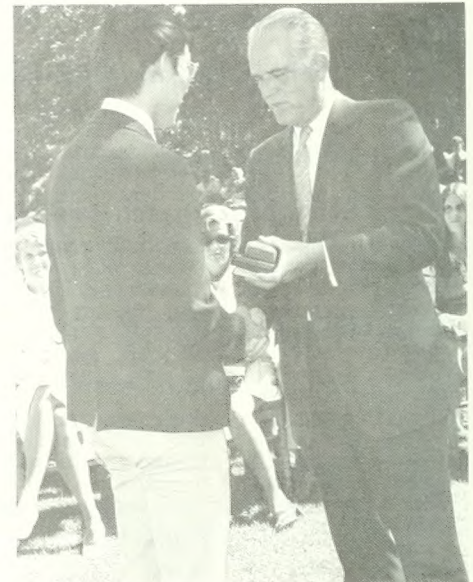

Following the prize giving ceremonies the assembled students, parents and friends heard an address from Professor John Conway of York University.

Gary Lawrence receives from the Headmaster the Macdonald Medal presented by the Old Boys Association in honour of Dr. D. Bruce Macdonald to the student most distinguished in studies and athletics taken together. The Macdonald Medal is considered the highest award the School has to offer. Gary also received the Laidlaw Trophy, also presented by the Association in honour of Robertson Laidlaw, master at the School from 1909 to 1960, to the student in Upper VI who has won for his clan the greatest number of points during

his last two years at the School; and the Lieutenant Governor's Bronze Medal.

Gary was Head Prefect this year, and by an extraordinary coincidence the photographer caught his father, William C. Lawrence, in the picture. He appears between his son and Dr. Hockin. What makes it extraordinary is that Bill was also the recipient of the Macdonald Medal and Head Prefect in the graduating year of 1949. To the best of our knowledge it is the first time a father and son have achieved this distinction.

The Edith Grant Trophy to the new boy in Macdonald House who has shown the greatest improvement towards becoming the ideal Andrean, is received by Jonathan Dunkelmann from Ed Crawford of the Board of Governors as Housemaster Ted Harrison looks on.

Bill Somers, President of the S.A.C. Association, hands the Brooks Cup, presented by Mrs. Allan Brooks, to the senior student most proficient in debating, to Brian Mitchell. Brian is the son of Mr. and Mrs. George H. Mitchell of Niagara Falls. He also received the Senior Music Prize.

Chairman of the Board Gage Love presents awards to York C. Pei, top student in Upper VI which included the Governor General's Medal, the Headmaster's Medal and the Lieutenant Governor's Silver Medal.

.....

Births

- '60 ANDREW D. B. WOOD, a son, Alexander Paul, on March 12th, 1976 in Hamburg, W. Germany.

- '71 NORMAN MacLEOD TURNER to JANE THOMPSON on December 20th, 1975 in London, Ont.

Graham Ford Towers, C.M.G.

St. Andrew's lost one of its most distinguished Old Boys in the person of Graham Ford Towers, who died last December 4th.

Graham entered the School as a boarder in Rosedale in September 1911, coming from Montreal. He quickly made a mark as a scholar and in his final year headed what was then called the "McGill class". Outside the classroom his interests included cricket, the Cadet Corps, the Literary Society and the Review.

The fall of 1913 found him at McGill where he again established himself as an outstanding student. However he interrupted university to enlist in the Canadian Army, although only 17, and went overseas as a Lieutenant in 1917. In the meantime McGill had granted him his B.A. in Economics.

Joining the Royal Bank in 1920 he rose to become Assistant General Manager in 1932. Then at 37 Mr. Towers was appointed first Governor of the Bank of Canada, where he remained until his retirement in 1954. During the Second World War years he was extremely busy as Chairman of the Foreign Exchange Control Board, and of the National War Finance Committee.

After retirement as Governor of the Bank he was in demand by business. Among his directorships were General Motors Corp., Canadian Investment Fund Ltd., Moore Corporation and Canada Life, of which Mr. Towers was later elected Chairman. He was also a member of the Economic Council of Canada.

He was on the Board of Governors of St. Andrew's from 1932 continuously until 1959, and played an important part in the Building Campaign of 1960 as Honorary Treasurer.

St. Andrew's will sadly miss Graham Tower's wise counsel and his generosity. In his memory the School has named the large seminar room of the library the Graham F. Towers Room.

Deaths

- '09 PAUL ROGERS FLEMMING on February 22, 1976 at Toronto, Ont.
- '10 REGINALD HAY WORTH on December 31st, 1975 at Toronto, Ont.
- '13 GRAHAM FORD TOWERS on December 4th, 1975 at Toronto, Ont.
